

EMERGENCIES

Gas Leaks: If you smell a gas leak you should call the Gas Board immediately on

0800 111999

Electricity: If you have a total power failure you should, in the first instance contact the Accommodation Office during office hours, or the on-call's emergency service, between the hours of 5.00 pm and 9.00 am.

Water: If you have totally lost your water supply or have a burst pipe you should follow the procedure as described under Electricity above.

EMERGENCY REPAIRS

The NNUHFT Accommodation regards the following repairs as emergencies. The NNUHFT Accommodation will normally respond to the following within 4 hours and in any event within 24 hours. If the emergency repair is required out of office hours or at weekends you should ring the emergency repair number. Emergency repairs are:-

- * An uncontrollable water leak.
- * No lighting.
- * Exposed electrical wiring likely to cause death or serious injury.
- * Damage to a door or windows, at ground floor or basement level which prevents an occupant from securing their property against unauthorised entry.

URGENT REPAIRS

The following repairs are considered by the NNUHFT Accommodation to be urgent. Beside each repair, listed below, is the number of working days a tenant would expect to have to wait before the NHS Accommodation would have responded satisfactorily to their complaint.

Lack of water(excluding Mains water)	1 working day
Any emergency repair to prevent further damage	1 working day
Complete lack of W.C. facilities	1 working day

Blocked drains likely to cause flooding or further damage	1 working day
Major, but controllable plumbing leaks	1 working day
Making safe any faults in electrical systems	1 working day
Overcoming the worst effects of roof leaks and overflows	2 working days
Loose masonry, depending upon its position:	
- to remove a hazard to life or limb;	1 working day
- for less serious problems	3 working days

OTHER REPAIRS

Hostel equipment - cookers, washing machines, irons (subject to availability of parts)	3 working days
Minor plumbing leaks not causing damage	10 working days
Gutters and external drainage	10 working days
Other repairs including	

minor glazing, sash
cords, internal joinery
and plasterwork

15 working days

External paths, boundary
walls and fences which
are not a hazard to
health

20 working days

Dampness, such as that
caused by defective
damp-proof courses or
damp-proof membranes:
to investigate and to
confirm how the repair
is to be carried out.

20 working days

REPAIRS TO CENTRAL HEATING AND HOT WATER SUPPLIES

The speed at which the NNUHFT Accommodation will respond to repairs to central heating and hot water systems will vary according to the time of year and the age, disability, or health of the resident. In times of cold weather, or where the household concerned is occupied by an elderly or disabled person or by young children under five, the NNUHFT Accommodation will clearly wish to respond faster than where the household is occupied by an able-bodied person.

LACK OF HOT WATER

The NNUHFT Accommodation would normally wish to reinstate supplies of hot water to a household within 3 working days.

CENTRAL HEATING

Except in times of severe weather conditions (e.g. temperatures below freezing for a prolonged period), the NNUHFT Accommodation would wish to repair central heating systems within 3 working days.

If the heating repair is likely to take longer than this, then the NNUHFT Accommodation Office will arrange to provide alternative heat source. It is not uncommon for boilers and central heating systems to require specialist maintenance. Where replacement parts are difficult to obtain the NNUHFT Accommodation regrets that it may not be able to keep within these response times. Where this is likely to happen the Accommodation will explain to the tenant the reason for the delay and give an expected date for the repair to be completed.

REPORTING REPAIRS

NNUHFT Accommodation Maintenance (during office hours)

Repairs may be reported by using the tenant's log in on the Maintenance Shire Cafm System:

System [Shire Cafm System](#)

Login: Accom_Tenants

Password = NHS51945

Or by telephone, by letter or by calling in person at the Accommodation office. You should give as much detail as possible about the repair needed, access arrangements, etc.
