

## Antenatal Checklist for midwives caring for antenatal women open to Change, Grow, Live (CGL)

Attach Addressograph Label

Please note- all correspondence from CGL is filed on E3 or in medical records.

<b>ACTION:</b> Please complete for all women under the care of Change, Grow, Live (CGL).	<b>Signature, name and role</b> (sign when undertaken)	<b>Date</b> dd/mm/yyyy <b>Time</b> 24 hour clock
<b>Midwifery responsibilities on admission to Cley/Delivery Suite</b>		
Ensure CGL are informed of admission in order to confirm opiate substitute treatment (OST) dose and arrange for CGL to update community pharmacy. CGL 01603 514096.		
Monday- Friday (8am-4pm) NNUH Substance Misuse Nurses can be contacted on x 6489 for advice or support. NNUH Substance Misuse Liaison Team liaises daily with CGL & is also able to confirm OST doses.		
Medical Staff to complete in-patient prescription		
Medication brought in should be stored and signed into CD cupboard. Inform Ward Pharmacist		
Liaise with Medical Staff re: plans for labour analgesia		
Consider Anaesthetic Alert for IV access		
If there are safeguarding concerns, document and liaise with Safeguarding Team x 2833.		
Inform Skylark Team x 5931/ SkylarkTeam@nnuh.nhs.uk		
<b>Responsibilities on Discharge</b>		
Contact CGL Practitioner to update re. discharge plan and confirm arrangements around ongoing OST prescribing. CGL 01603 514096.		
<b>Caution:</b> If mother is discharged from Cley or Delivery Suite out-of-hours, ensure that the community pharmacy has been contacted to reinstate prescription. TTO's may be prescribed to cover the time until community prescription has been reinstated.		
<b>Following birth of baby, complete Checklist for Midwives and NICU Staff caring for women open to Change, Grow, Live (CGL) and their Babies at Risk of Neonatal Abstinence Syndrome (NAS)</b>
