

Swallowing Advice

Before Eating and Drinking

- Sit as upright as possible, preferably in a chair and at a table.
- Reduce any distractions such as radio or television.

During Eating and Drinking

- Eat and drink slowly. Do not rush.
- Take one mouthful at a time. Sometimes two or more swallows may be needed to help clear the food or drink from your throat or mouth.
- Avoid more difficult foods/drinks when you are tired e.g. late in the day.
- Ensure your mouth is clear before taking another mouthful.
- Alternating sips of drink and mouthfuls of food may be helpful.
- Drinks should be taken from an ordinary cup or glass unless advised otherwise.
- Spouts or straws should usually be avoided as they make fluids more difficult to control.
- Avoid large mouthfuls.
- Try to avoid tipping your head backwards when eating and drinking.
- Try to concentrate, avoid talking when eating and drinking.
- For people that require assistance with feeding, it can be helpful to hold the cup/ spoon/ fork together known as 'hand over hand feeding'.
- Follow the food/ fluid consistencies advised by your Speech & Language Therapist.

After Eating and Drinking

- Stay sitting upright for 30 minutes after eating.
- At the end of each meal make sure your mouth is empty.

Top Tips

- Clean your mouth well to avoid bacteria growing. Brush your teeth, gums and tongue twice a day. Don't forget to clean your dentures thoroughly.
- If tablets are difficult for you to manage ask your Doctor or Pharmacist about alternative forms of medication.
