

# Your information, your rights. Help us to help you!

Norfolk and Norwich University Hospitals NHS Foundation Trust will ask for and keep information about you, so that you can receive proper care and treatment when you need it, for as long as you need it.

The law regulating your personal information is changing. It strengthens your rights over your personal information and allows us to collect, use and share your information for the provision of care. If we have to share information that identifies you, for any other purposes, we will seek your explicit consent.

## Your Rights under the new law
