CODES USED IN THIS MENU

- HC** Higher Calorie: more nourishing than those coded as they contain more calories. Suitable for patients with a reduced appetite.
- ♥** Healthy Options: contain moderate amounts of fat, sugar and salt. Suitable as part of a healthy balanced diet and for patients with diabetes.
- EC** Easy to Chew: suitable for patients who have difficulty coping with firm foods (e.g. patients who have no teeth, loose dentures or sore mouth). Refer to our modified texture menus if you have difficulties with swallowing (dysphagia).
- V** Vegetarian: free from meat, poultry, fish and all products derived from these. Suitable for vegetarians that consume milk, eggs and their products. Vegan options available.

This menu has items that have been carefully selected by the Dietitian in order to meet the diet you have been advised to follow. The diet must contain as little total fat as possible. The diet traditionally known as an MCT diet, is a diet with minimal Long Chain Fat (LCT) content. Naturally occurring fats contain both MCT (Medium Chain) and LCT.

ALLERGEN INFORMATION

If you have a food allergy or intolerance, please advise your Nurse on admission and always inform your Ward Host before you place a meal order.
